

Demand Response Service

Accessibility

The Carrot Express (CTA) is accessible to persons with disabilities. Our buses and vans are equipped with wheelchair lifts or ramps that enable persons in wheelchairs or persons who cannot navigate steps to ride the bus. Buses have priority seating for persons with disabilities. Operators are trained to assist riders and secure wheelchairs.

You may travel with your respirator, concentrator, and portable oxygen. Service animals are welcome onboard buses and vans and in our facilities. (They must be kept under the control of the passenger at all times.)

Reasonable Modification Policy

Passengers with disabilities may request modifications to current service procedures to access the service. To make a request, please call us at 505-290-2469 or email us at carrotexpress@villageofmilan.com.

REASONABLE MODIFICATION POLICY

Background

Effective July 13, 2015, transit providers are required under 49 CFR 37.5(i)(3) to make reasonable modifications in policies, practices, or procedures when the modifications are necessary to avoid discrimination on the basis of disability or to provide program accessibility to their services. The process to be used in considering requests for reasonable modifications is described in 49 CFR 37.169.

Basic process requirements that must be met are:

- Information on the reasonable modification process must be readily available to the public, and must be accessible
- Advance notice can be required, but flexibility is also needed to handle requests that are only practicable on the spot
- Individuals requesting modifications are not required to use the term "reasonable modification"

Procedure

Passengers can request reasonable modifications for all modes (fixed route, general public demand response, and ADA paratransit). Passengers making requests are not required to use the term "reasonable modification."

Requests should be made at least the day before, but flexibility is required for on the spot requests. The transit manager will review all requests and provide the determination. For on-the-spot requests, the driver should contact dispatch. Dispatch will contact the transit manager.

Documentation will be maintained regarding the request and the resulting action taken.
